Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

TEXAS PUBLIC FINANCE AUTHORITY ADMINISTRATOR'S STATEMENT

AGENCY MISSION AND STRATEGIES

The Texas Public Finance Authority ("TPFA") respectfully submits its Legislative Appropriations Request ("LAR") for the FY2018-19 biennium. To fund agency administrative operations, the LAR includes a biennial general revenue base request amounting to \$2,947,897, supplemented by two exceptional items amounting to \$278,955 in non-general revenue funds.

TPFA's mission is to provide the most cost effective financing for state agencies, institutions of higher education and certain instrumentalities of the state to fund capital projects, equipment acquisitions, and programs authorized by the Legislature. This mission has expanded significantly since TPFA's creation in 1984, in terms of the number of client state agencies, the variety of the agency's financing programs and the complexity of its financing transactions. TPFA also administers the Master Lease Purchase Program ("MLPP"), which is available to finance equipment for all state agencies and institutions of higher education. During its existence, TPFA has issued in excess of \$20.75 billion in debt obligations and refunding bonds on behalf of 28 state agencies, universities and instrumentalities of the state. In addition, the TPFA's Charter School Finance Corporation ("CSFC") has issued 33 charter school series of bonds amounting to \$353.3 million. TPFA is the state's central bond debt issuing agency, currently managing over \$3.7 billion in outstanding debt. Further, the agency plays a major role in shaping the public finance industry's perception of the state's debt issuance practices and maintaining the state's "AAA" credit rating.

TPFA achieves its mission through three budget strategies: 1) ANALYZE FINANCINGS AND ISSUE DEBT, i.e., provide efficient and cost effective financing for client agencies, 2) MANAGE BOND PROCEEDS, i.e., ongoing bond administration which includes servicing the outstanding debt by making timely principal and interest payments, managing bond proceeds, and complying with bond covenants and federal tax and securities laws; and, 3) BOND DEBT SERVICE PAYMENTS for all of TPFA's outstanding general obligation and revenue bond debt (except those issued for charter schools and universities). TPFA implements the first strategy through the use of financing with various debt instruments such as long term fixed rate bonds, short term commercial paper notes, variable rate debt, debt refundings, and cash defeasances.

The second strategy, ongoing bond administration, is equally important to achieving TPFA's mission. To prevent an obligation default, which could adversely affect the state's credit rating, all debt obligations must be closely monitored for compliance with federal tax and securities laws and bond covenants, and timely payment of principal and interest must be made. This function requires the proper transfer of monies between unique funds to ensure timely payment to the bondholders. Lastly, the TPFA's funding allocation includes General Obligation Bond Debt Service as a third strategy, which provides an appropriation to pay debt service on the outstanding general obligation debt issued by TPFA. Pursuant to the provisions of the Texas Constitution, the first monies coming into the State Treasury must be used to service the debt on the State's general obligation debt.

Execution of these three agency budget strategies requires competence in interactions with underwriters, bond counsel, financial advisors and other industry participants to optimize results and minimize transactional risks. TPFA, likewise, must interact with policy makers, oversight entities, client agencies and the Bond Review Board. Thus, TPFA must be well versed in internal state protocols as well as that of the financial markets. This is the framework of our budget considerations.

CHANGES IN POLICY, PROVISION OF SERVICE AND EXTERNAL FACTORS

TPFA's primary method of capital financing is through the sale of tax-exempt bonds and commercial paper. Because the interest income from these securities is not taxable as income under federal law, these securities are advantageous to certain investors even though they frequently carry lower interest rates than taxable securities. Other regulations, such as the arbitrage rebate provisions of the Internal Revenue Service ("IRS") Code, have significant impact on the way TPFA tracks the investment and expenditure of bond proceeds. The Securities and Exchange Commission ("SEC") has also adopted rules regarding the valuation of certain money market funds,

Administrator's Statement

9/9/2016 10:35:55AM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

which may impact the participation of those funds in the municipal market. Therefore, TPFA constantly monitors federal developments.

Since the market downturn in 2008, federal agencies such as the SEC, the IRS and the Municipal Securities Rulemaking Board (“MSRB”) have increased their scrutiny of tax-exempt market participants, including issuers, consultants and broker/dealers. New federal regulations and legislation, such as the Dodd-Frank Wall Street Reform and Consumer Protection Act, have resulted in greater federal oversight of municipal bond issuers. Finally, TPFA must comply with SEC requirements for issuers and underwriters to self-report instances of technical or financial default or prior non-disclosed matters.

Other external factors, particularly the number of projects authorized by the Legislature and the associated implementation costs, impact TPFA’s debt issuance and management workload.

The voters have approved a total of \$9.1 billion in general obligation bonds for numerous projects including capital construction, repairs and renovations, economic development and cancer research to be financed by TPFA. Since its inception, TPFA and its CSFC have also issued \$9.2 billion in revenue debt, which does not require voter approval. The Legislature has authorized TPFA to issue up to \$1.0 billion in revenue bonds on behalf of the Texas Windstorm Insurance Association (“TWIA”) to finance claims resulting from catastrophic events. Most recently, the 84th Legislature authorized the issuance of over \$767 million of lease revenue debt on behalf of the Texas Facilities Commission for which TPFA has created a new commercial paper financing program. Additionally, the Legislature authorized \$3.1 billion of tuition revenue bonds (“TRB”) for institutions of higher education. TPFA has issued a portion of these TRB bonds during the current biennium.

Historically low interest rates have created both tremendous savings opportunities and increased workload for TPFA. During fiscal years 2015-2016, TPFA has refunded 13 series of bonds, saving over \$49.2 million of future debt service costs to the state.

These new authorizations and refunding opportunities have increased the number of bond issues and the complexity and frequency of ongoing debt administration, including monitoring the expenditure of bond proceeds and compliance with bond covenants, paying bond debt service, and managing variable rate debt to keep the overall cost of borrowing low.

To continue to effectively implement and manage legislatively authorized financing programs and to ensure TPFA’s financings remain in strict conformance with state guidelines and federal law--thus protecting the state’s credit rating--the Legislature appropriated \$500,000 for the purchase of an automated technological solution for debt management. This system will help TPFA meet its monitoring and compliance responsibilities. Automation will potentially decrease the amount of interest earnings that the State is required to rebate to the IRS and maximize the opportunities for client agencies to use proceeds and investment proceeds more efficiently. UB authority is requested for the FY2018-19 biennium in order for TPFA to complete final system software enhancements, migration and training.

AGENCY FUNDING CHALLENGES AND SOLUTIONS

In its thirty-two year history, various methods of financing (MOF) have been employed to fund TPFA administrative costs, including set-aside of revenue bond proceeds, MLPP administrative fees and General Revenue.

In recent years, the legislature has appropriated General Revenue for TPFA’s debt issuance and bond fund monitoring strategies; however, this funding has not kept pace with the agency’s requirements, specifically competitive salaries to attain necessary staff competency. Furthermore, no appropriation other than a minimal issuance fee has been appropriated for agency support of the CSFC.

To meet TPFA’s funding needs more fully described throughout this LAR, TPFA has identified MOF alternatives for legislative consideration. The first LAR priority is

347 Public Finance Authority

funding necessary to issue legislatively approved debt, monitor bond proceeds to assure appropriate and legal expenditures and, most importantly, to pay principal of and interest on state debt. These activities are necessary to fulfill legislative priorities and to maintain the state's cost-saving "AAA" credit rating. During the current biennium TPFA is recovering from the loss of more than 50% of the staff. The losses included the agency's Executive Director, General Counsel, and other key positions. Rebuilding the agency staff began in the fourth quarter of FY 2014 when the board selected a new Executive Director who realized a salary reduction in order to accept the position with TPFA. Other key staff includes other return-to-work retirees and retirement eligible employees for whom TPFA pays a disproportionate amount of personnel related costs amounting to approximately 5.0% of the administrative budget. The agency's rebuilding actions have been designed to "build the bench" by recruiting qualified individuals in mid-career.

The financial and reputational risk to the state posed by lack of adequate staffing to: 1) devote necessary resources to ensure the best pricing on new and refunding bond issues; 2) accurately and timely monitor bond proceeds and ensure regulatory compliance; and 3) to pay the debt service on bonds promptly and accurately, would result in the degradation of the state's credit rating and a corresponding increase in the borrowing cost for all of Texas state government.

In June 2014, as a result of extraordinary turnover, TPFA's staffing level had been reduced from 14 to 6 full-time equivalent employees. Beginning with the appointment of an Executive Director, the agency embarked on a successful plan to rebuild and enhance the agency's human resources in order to fulfill its mission and catch up projects deferred by lack of staff capacity.

As vacant positions have been filled, care was taken to specify the exceptional knowledge, skills and abilities that TPFA's board of directors and the state's leadership expect from the state's central debt issuing agency. Necessary and exceptional staff will cost more money than the FY2018-19 base level of General Revenue funding will allow. While the new debt management system will streamline certain processes and improve accuracy, the risk of under-staffing the agency poses a significant financial risk to the State.

Since 1986, TPFA has refinanced over \$3.9 billion of general revenue supported debt providing savings of over \$238.6 million. Limiting staff resources will impair the agency's ability to take advantage of future savings opportunities while also fulfilling the plethora of state agency reporting, bond management and compliance activities. While TPFA has always been a prudent steward of state resources, issuing and managing an increasing volume of debt with a small workforce; retention of experienced staff will ensure TPFA's ability to take advantage of debt service savings opportunities. TPFA's appropriation and rider request would provide compensation and training resources needed to support career ladders and to attract and retain the highest caliber financial professionals possessing the skills to cost effectively issue debt, monitor bond proceeds and manage the agency's outstanding debt. TPFA's limited financial resources have made the agency non-competitive with respect to salaries. To fill and retain critical positions, TPFA must compete with higher salaries that are available in the financial services industry and with other state and municipal debt issuers. Finally, the cap on the salary of TPFA's Executive Director creates salary compression for other key agency personnel.

TPFA's operational priorities and funding request for FY2018-19 reflect the workload and critical functions; the increased demands as a result of municipal market regulatory changes; increased responsibility for debt administration; and the funding necessary to attract and retain highly skilled financial personnel.

FUNDING REQUEST - ADMINISTRATIVE OPERATING BUDGET

General Revenue 96% Base Level Funding:

TPFA submits this appropriations request in conformance with the FY2018-19 LAR instructions, limiting its General Revenue Base Level request for operations to 96% of the FY2016-17 base level of funding. TPFA can comply with this level of funding by reducing its reliance on contracted personnel costs which were necessary until the agency became fully staffed. However, this level of funding will not provide funding to provide salary increases, much less competitive salaries across the agency. As reflected in TPFA's current Survey of Employee Engagement, below market compensation is the only significant item of discontent among the agency's employees.

347 Public Finance Authority

During the current biennium, it has proven very difficult to attract qualified applicants at budgeted salary levels. The opportunity for employees to leave the agency to obtain higher compensation poses a risk to the agency because it takes two years for employees to become fully trained and competent to perform highly complex and unique job responsibilities.

Although TPFA is a small agency in terms of its FTE count and its administrative budget, it is the debt issuer for 28 state agencies and related entities as well as for 33 series of bonds issued by TPFA's CSFC for the benefit of charter schools. TPFA manages over \$3.7 billion in outstanding debt, the performance of which is critical to maintaining the state's high credit rating. The nature of the agency's work requires employment and retention of individuals with extensive knowledge and experience in fiscal management, accounting, budgeting, and information resources as well as expertise in municipal finance regulations.

Specialized knowledge and advanced skills are necessary to manage debt issuance beginning with a client agency's request for financing, to the retirement of debt. Highly specialized TPFA staff with many years of experience do not earn salaries that are available in the private sector. Nonetheless, TPFA's work is no less complex than required by private sector municipal finance service providers. Agency personnel require a strong understanding of finance, state and federal law, and public finance practices. These highly-specialized skills are not developed through a typical graduate or undergraduate degree program, they are obtained through years of hands-on experience and continuing education, therefore it is essential that the agency be provided with funding resources necessary to make strategic investments in its human resources to attract and retain such skilled personnel. Another budget challenge for TPFA is the agency's disproportionate burden of employee benefit costs due to the relatively large number of long-tenured and return-to-work retired employees.

The paramount responsibility of TPFA is to maintain compliance with state and federal laws and ensure that principal and interest on the outstanding obligations are timely and accurately paid. The base funding level will permit the appropriately staffed agency to carry out its mission to issue debt and to pay debt service timely. However, the base level of funding could restrict the agency's ability to initiate additional significant financing programs, to take advantage of cost savings refunding opportunities or to migrate to the Comptroller's Centralized Accounting and Payroll/Personnel System ("CAPPS"). If TPFA cannot retain qualified and experienced bond monitoring and compliance staff, knowledge loss will pose a risk to the state's credit rating and the tax-exempt status on the outstanding debt.

The base level assumes flat salaries and provides funding for ten board meetings including travel and per diem, and the amounts necessary to provide bond administration support, legal services, risk management and office supplies and equipment.

The base level of funding does not include salary increases pending legislative decisions regarding across the board salary adjustments. TPFA is prepared to discuss agency-specific market adjustments for salaries. The estimated non-General Revenue biennial cost for market compensation would be approximately \$0.5 million. TPFA's requested riders and mixed method of financing recommendation would provide flexibility to continue to adjust staff salaries to market average.

TPFA is a small agency and does not allocate administrative costs. Key agency staff who perform some administrative functions are predominantly engaged in strategy functions.

TEN PERCENT BIENNIAL BASELINE REDUCTION OPTION

A 10% General Revenue reduction below TPFA's baseline request would amount to \$294,790 for the FY2018-19 biennium. TPFA's appropriation for General Obligation Bond debt service is excluded from the required reduction option.

Approximately 90% of TPFA's operating budget consists of salaries and other personnel costs. A 10% reduction in General Revenue will require the elimination of two FTE's (a Project Specialist and a General Ledger Accountant) and a significant travel budget decrease for the biennium, reducing the number of board meetings and

Administrator's Statement

9/9/2016 10:35:55AM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

eliminating some staff travel for training. In this scenario, the ability of the agency to perform its functions will be critically impaired. Funding at this reduced level will create a financial risk to the state by: 1) reducing resources assigned to financial reporting and management; 2) by eliminating a position dedicated to evaluating and developing innovative cost saving financing strategies; and, 3) by eliminating critical training for staff.

EXCEPTIONAL ITEM FUNDING REQUESTS

1. Critical Agency Operations – Increase Exempt Salary Cap for Executive Director Position

To fund an adjustment to the Executive Director's exempt salary group and cap described further in this administrator's statement, TPFA requests non-general revenue funding to adjust the executive director's compensation to more closely align with the responsibilities of other issuers of public debt in the state. As previously discussed TPFA's current executive director retired in order to offset a loss of compensation when he accepted the position. TPFA requests funding for an increase in TPFA's line-item exempt position for the executive director up to \$200,000, a biennial increase of \$152,752.

In addition to having the knowledge and ability to manage a Texas state agency, TPFA's executive director must possess knowledge and skills equivalent to a Wall Street financial advisor or investment banker in order to evaluate each financing transaction and to assess municipal bond market conditions. The current not-to-exceed salary is significantly lower than the salaries of other state debt issuer executives as well as other government issuers around the country and this alone limits interest in the position and creates salary compression for other positions at the agency. For example, in 2014 TPFA lost its prior executive director, a long tenured state employee, to the New Mexico Finance Authority which could offer a significantly higher salary rate. TPFA's Board of Directors requests that its Line-Item Exempt Executive Director position be added to the Article IX Schedule of Exempt Positions, Section 3.04(c)(6), for discretionary considerations.

2. Critical Agency Operations –CAPPS Implementation

To achieve the priority of maintenance of critical agency operations, TPFA is requesting exceptional item non-general revenue funding to enhance the recently rebuilt agency's workforce with additional personnel to implement CAPPS. Current and projected workload related to CAPPS will require a complement of 16 FTE's. TPFA is slated for implementation of CAPPS Financials beginning September 1, 2018, with deployment scheduled for September 1, 2019. Included in TPFA's exceptional item funding are costs associated with onboarding the agency to the Comptroller's statewide platform, including \$122,400 in salaries and other personnel costs, and other operating costs amounting to approximately \$5,011 dedicated to agency deployment efforts. In addition to these funding levels TPFA anticipates adding one additional FTE during FY 2018 dedicated to CAPPS implementation and deployment. This additional resource is critical for the agency to continue to serve its client agencies, ensure that bond funds are monitored and managed to ensure that the tax-exempt status of outstanding bonds are retained and that the State's outstanding debt is paid timely.

Funding for this exceptional item is essential to ensure that TPFA is able to administer its outstanding debt and comply with both Comptroller requirements and new demands placed on issuers by federal regulatory agencies.

METHOD OF FINANCING FOR ADMINISTRATIVE OPERATIONS

Historically, TPFA was funded from the proceeds of revenue bond issues and thus agency administrative costs had zero general revenue cost to the appropriations bill. Voter approval of general obligation bond issues in subsequent years resulted in TPFA issuing an increasing proportion of general obligation debt compared to revenue bonds; however, unlike its client agencies TPFA has never been funded from the proceeds of general obligation debt. To offset the declining issuance of revenue bonds (and bond proceeds), the legislature has more recently appropriated general revenue to fund agency operations, as well as appropriated receipts from TPFA's Master Lease Purchase Program (MLPP).

Administrator's Statement

9/9/2016 10:35:55AM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

The 84th Legislature authorized a new multi-year revenue bond financing program for Texas Facilities Commission building projects. This revenue financing structure offers the opportunity to generate issuance fees, bond premium, or bond proceeds set-aside to fund TPFA's administrative costs. Also, MLPP program activity and related administrative fee collections have increased during FY2016-17 as certain agencies and institutions of higher education have sought to take advantage of historically low interest rates to finance equipment.

TPFA recommends and requests that the Legislature adopt a mixed method of financing for TPFA's administrative operations during the FY2018-19 biennium. This would serve two purposes: 1) to fully fund the agency's budget request while reducing general revenue cost to the bill; and, 2) to allocate costs by method of financing to the agency's general obligation, lease revenue and lease purchase programs.

FUNDING REQUEST - GENERAL OBLIGATION BOND DEBT SERVICE

Funding is requested for debt service for outstanding general obligation bonds and estimated debt service for bonds and/or commercial paper anticipated to be issued during the 2018-2019 biennium. This request reflects funding of general obligation bond debt service through General Revenue and the General Revenue-Dedicated Texas Military Revolving Loan Account No. 5114. General Revenue funding is requested for TPFA's federal direct subsidy Build America Bonds, due to the uncertainty of fulfillment of the federal subsidy commitment.

Further, additional debt service for new projects authorized by the 85th Legislature must be appropriated.

This funding request is based on the following interest rate assumptions: for long term tax-exempt fixed rate bonds 6.0% for FY 2017 through 2019; for short-term tax-exempt variable rate commercial paper 5.0% for FY 2017 and 6.0% for FY 2018-2019; and 7.0% for FY 2017 and 7.5% for taxable variable rate commercial paper during FY 2018-2019; and for taxable long term fixed rate bonds 7.5%, for FY 2017 through FY 2019.

Given existing debt service requirements, estimated costs associated with projected new debt and assumptions approved by the LBB and Bond Review Board, TPFA requests the minimum amount necessary to service general obligation bond debt. However, TPFA regularly updates its debt service projections in order to make unneeded funds available for budget execution or supplemental appropriations as required by the legislature. During the FY2014-15 biennium, TPFA identified \$17,500,000 used for budget execution and \$25,000,000 used for funding the FY 2015 Supplemental Appropriations Bill.

RIDERS

TPFA requests retention of riders in effect for the FY2016-17 biennium with the indicated adjustments for the 2018-2019 biennium. Adjustments to Rider 6 will allow for funding of lease revenue debt in view of the addition of the new financing program initiated during FY2018-19. TPFA also requests restoration of a long-standing contingency funding rider that would provide funding if the Number of Requests for Financing projected for FY2018-19 is exceeded by 30%. Finally, TPFA requests continuation of Rider 12 which appropriates unexpended balances ("UB") for the Automated Debt Management System which will have migration and training requirements during FY2018-19.

Riders to be retained includes only those riders that are in TPFA's bill pattern or that affect agency operations, as well as the appropriations for bond servicing costs on general obligation bonds. Riders affecting revenue bonds will be included in the respective client agencies' LAR's. Finally, TPFA requests retention of UB authority for all three strategies due to the uncertainty of the timing of the issuance of debt and debt service requirements which cannot be determined until the debt is actually issued. UB authority becomes critical when requests for projects are delayed until the second year of the biennium.

Administrator's Statement

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

SUMMARY

TPFA plays a major role in shaping the public finance industry’s perception of the State’s debt issuance practices, therefore it is imperative that TPFA have access to the human, technological and market resources needed to develop and adhere to sound debt management practices, to master and use new financing techniques to structure and market debt, and to ensure that its debt remains in compliance with state and federal laws. The industry’s perception of state debt issuance practices and stability affect the State’s credit rating and can significantly impact the cost of debt to the State. It is important for TPFA to keenly focus its efforts, particularly as the scope of its functions expands to meet legislative policy and the needs of its client agencies, and due to the complex and challenging public finance industry economic and regulatory environment.

These funding resources will ensure that TPFA stays abreast of new developments in the public finance industry and able to provide the most efficient, cost-effective financing for its client agencies and, ultimately, the citizens of Texas. Further, the requested resources will enable TPFA to meet the financing needs of the state, maintain the state’s “AAA” rating, continue sound debt management and capital financing practices for the State of Texas and serve as a resource to state leadership in the areas of debt issuance and debt administration.

With the requested funding TPFA will be a prudent steward of state resources and continue to maintain the state’s credit quality and reputation, which the Legislature and the citizens of Texas have a right to expect from their state government.

BACKGROUND CHECKS

Chapter 1232 of the Government Code, TPFA’s enabling law, does not contain any provision concerning criminal background checks. TPFA is not prohibited or required to conduct such checks and does not routinely do so for each position; however, it reserves the right to do so when filling an open position, depending on the job duties and authorities assigned to the position.

EXEMPT POSITIONS AND SALARIES

TPFA’s Board of Directors requests compensation for its exempt position at the not-to-exceed (NTE) salary level shown below and that TPFA’s Executive Director position be adjusted to Salary Group 6. Further, the Board requests that the Executive Director position be included in the Article IX Schedule of Exempt Positions, Section 3.04(c)(6), to allow the Board the discretion to set the salary within that salary range. As noted in the August 2016 SAO Report on Executive Compensation at State Agencies, the Executive Director position is currently below market average.

	FY2016-17	FY2018-19

------	-------------	----------	----------	----------	---------	---------

The Authority is directed by Chapters 1232 and 1401 Texas Government Code to issue revenue bonds and general obligation bonds to finance projects authorized by the Legislature. Constitutional Amendments in 1985, 1987, 1989, 1991, 1993, 2001, 2003, and 2007 authorized a total of \$9.1 billion of General Obligation bonds to finance adult and youth correction institutions, mental health and mental retardation institutions and renovation, repair and construction of state facilities, cancer research, and other programs. Revenue bond financed projects for the Texas Facilities Commission and other state agencies and institutions of higher education include purchasing or constructing facilities in the Capitol Complex as well as other locations across the state. This strategy provides the necessary resources to provide financing for capital projects and equipment. This strategy and the agency goal support the statewide objectives. Specifically, this strategy supports effective, efficient and accountable state government operations and ensures that the state’s debt is issued to achieve the lowest overall cost of borrowing; debt is efficiently issued to provide the highest quality service to meet the needs of each client agency; and, debt issuance is transparent with offering documents reviewed and approved by the Bond Review Board, published on the Authority’s website, and made publicly accessible on the Electronic Municipal Market Access system, or EMMA, the official repository of the Municipal Securities Rulemaking Board for municipal bond information.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

External Factors: The number and cost of projects authorized by the Legislature and requests by client agencies affect the level of debt issuance. Interest rates, service provider costs and market conditions also affect the cost of issuing debt.

Internal Factors: Staff recommendations and Board policies regarding the type of debt issued, the mode in which it is issued, and the management of contracts related to debt issuance affect the overall cost of borrowing. The ability to attract, train and retain a skilled and knowledgeable workforce consisting of individuals possessing extensive experience in debt issuance, contracting, and state and federal legal issues in municipal finance is vital to implement this strategy.

------	-------------	----------	----------	----------	---------	---------

The Authority is directed by Chapters 1232 and 1401 Texas Government Code to issue bonds and obligations as described in strategy 01-01-01, implement the bond covenants for the issuance, manage the proceeds, and to timely pay principal and interest. The bond covenants mandate the Authority to manage and monitor the expenditure of bond proceeds for compliance with applicable state and federal laws and ensure the timely payment of required principal and interest payments. This strategy provides the necessary resources to meet these requirements and accomplish the goal to monitor and conservatively manage bond issuances authorized by the Legislature in the most efficient manner possible. This strategy and the agency goal tie directly and indirectly to the statewide objectives. Specifically, this strategy supports effective, efficient and accountable state government operations by providing for the required management of bond proceeds, compliance with bond covenants and applicable state and federal laws and timely payment of principal and interest on the debt obligations, which will ensure the state's continued access to the bond market at the lowest possible cost to successfully fulfill the agency's core function. Finally, the Authority provides the highest quality service to meet the needs of each client agency; debt service is transparent through financial and budget reporting, and continuing disclosures are filed on the Electronic Municipal Market Access system, or EMMA, the official repository of the Municipal Securities Rulemaking Board for municipal bond information.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

External Factors: This strategy is driven by strategy 01-01-01 and the resulting volume of debt issuance. Currently, the agency manages approximately \$3.8 billion in outstanding debt and currently manages 97 bond funds that have resulted from the issuance of bonds and other debt instruments. New authorizations and their subsequent debt issuance will impact this strategy in the direct areas of accounting, monitoring and management of funds, including payment of debt service. Changes in federal regulatory activities and laws, including the Municipal Securities Rulemaking Board, the Securities and Exchange Commission, and the Internal Revenue Service stipulate the bond monitoring and compliance efforts required to ensure that the state's debt is managed judiciously and that tax exempt bonds maintain their tax exempt status.

Internal Factors: The ability to attract, train and retain an intelligent, motivated and knowledgeable workforce who possess the skills to utilize efficient, cost-effective, and comprehensive information resources technology which includes debt management, accounting, and financial reporting systems, is the foundation of this strategy. Appropriate human resources and improved automation resources are critical elements necessary to implement this strategy.

------	-------------	----------	----------	----------	---------	---------

This strategy includes appropriations necessary for servicing the Authority’s General Obligation Debt. General Obligation Bonds are backed by the full faith and credit of the State pursuant to the Texas Constitution, Article III, Sections, 49-f, 49-h, 49-i, 49-l, 49-n, 50-f, 50-g, and 67. Timely payment of the Authority’s outstanding debt must be performed to prevent default and to maintain the state’s credit rating to ensure future borrowing at the lowest possible cost. This strategy and the agency goal support the statewide objectives. Specifically, this strategy supports effective, efficient and accountable state government operations by providing for the timely payment of G.O. Bond Debt Service, which will ensure the state's continued access to the bond market at the lowest possible cost to successfully fulfill the agency’s core function. Finally, the Authority provides the highest quality service to meet the needs of each client agency; and, transparent such that debt service information is transparent through financial reporting and budget reporting.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Additional appropriations of bond proceeds by the Legislature and new constitutional authorizations approved by the voters will require an increase in the amount needed for the Authority to service and pay the amounts of principal and interest due on its outstanding obligations. The ability to attract, train and retain a highly skilled and knowledgeable workforce with individuals possessing extensive experience in the state’s accounting and budgeting systems, as well as state and federal laws, are vital to implement this strategy.

4	I-50 – I-51	<p>Appropriation and Transfer Authority of Interest and Sinking Funds for General Obligation Bond Debt Service Payments. Prior to the expenditure of funds appropriated out of the General Revenue Fund to pay debt service on general obligation bonds, the Public Finance Authority shall utilize any balances available in interest and sinking funds for said purpose. The Authority is hereby appropriated all amounts available in interest and sinking funds, including any unexpended balances in these funds for the purpose of paying debt service on general obligation bonds.</p> <p>In compliance with the bond resolutions and funds management financing agreements between the Texas Public Finance Authority and the Comptroller of Public Accounts all agencies on whose behalf the Texas Public Finance Authority has, or will issue bonds, notes, or other obligations, the Texas Public Finance Authority is hereby authorized to transfer funds, appropriated for bond debt service, into the appropriate interest and sinking funds in amounts as necessary for the payment of principal and interest due on general obligation bonds. Such transfers shall be made no sooner than the day that bond debt service is required to be delivered in accordance with the bond resolutions and funds management agreements. The Texas Public Finance Authority is also authorized to transfer funds appropriated for general obligation bond debt service to the interest and sinking fund(s) to pay ongoing costs associated with the General Obligation Commercial Paper Program.</p> <p><i>The technical changes above are recommended to align with the current business practices of the Authority and the Comptroller of Public Accounts, following the elimination of funds management agreements for the FY2018-19 Biennium.</i></p>				
5	I-51	<p>Appropriation and Transfer Authority for Revenue Bond Lease Payments. Balances in and revenues accruing to the Texas Public Finance Authority revenue bond interest and sinking fund(s) are appropriated to the Texas Public Finance Authority for bond servicing costs on revenue bonds. Bond servicing costs shall include such costs as debt service payments, insurance premiums, paying agent fees, and other costs associated with the outstanding bonds.</p> <p>The Texas Public Finance Authority is hereby authorized to transfer such amounts as necessary for the payment of bond servicing costs from the General Revenue-Dedicated State Lease Fund Account No. 0507 to the Texas Public Finance Authority interest and sinking fund(s) or other debt service funds.</p> <p><i>No recommended changes.</i></p>

Description/Justification for continuation of existing riders or proposed new rider

This rider appropriates all current fund balances held in General Obligation Interest and Sinking (“I&S”) Funds to the Authority for the purpose of servicing the debt on its general obligation bonds. Additionally, the rider authorizes the transfer of appropriations included in the Recapitulation at the End of Article and identified in Bond Debt Service Payments in the General Appropriations Act to the Authority. Appropriations made by this rider reduce General Revenue expenditures by a like amount. This rider does not increase total appropriation authority, it merely directs the method of finance. Retention of this rider is requested for the FY2018-19 Biennium to service the debt on the Authority’s outstanding obligations.

Description/Justification for continuation of existing riders or proposed new rider

This rider authorizes the transfer of lease payment appropriations made in this and other Articles of the General Appropriations Act to the Authority to service the debt on its revenue bonds. Additionally, it appropriates amounts in the State Lease Fund Account and in revenue bond Interest and Sinking (“I&S”) Funds to the Authority for lease payments, which includes payments of debt service and other bond administrative costs. It also authorizes the transfer of appropriations between the State Lease Fund Account to the various I&S Funds for the payment of such costs. The Authority is required to make lease payments on behalf of the Texas Facilities Commission, Texas State Preservation Board, and other client agencies for which it issues revenue bonds. Retention of this rider is requested for the FY2018-19 Biennium to pay bond servicing costs on the Authority’s outstanding revenue bonds.

Description/Justification for continuation of existing riders or proposed new rider

This rider authorizes the transfer of lease payment appropriations made in this and other Articles of the General Appropriations Act to the Authority into the State Lease Fund Account for capital projects financed through revenue commercial paper programs. This rider authorizes the transfer of appropriations from the State Lease Fund Account to the respective Revenue Interest and Sinking (“I&S”) Funds and Costs of Issuance (“COI”) Funds in order to pay the debt service and administrative costs on revenue commercial paper obligations. Retention of this rider is requested for the FY 2018-19 Biennium to pay bond servicing costs on the Authority’s outstanding revenue obligations. For purposes of this section, the Texas Public Finance Authority revenue commercial paper programs include the Master Lease Purchase Program, the Texas Facilities Commission Revenue Commercial Paper Program and any revenue financings authorized by the 85th Legislature.

Description/Justification for continuation of existing riders or proposed new rider

This rider provides for an additional appropriation of fees assessed and collected by the Texas Public Finance Authority Charter School Finance Corporation (“TPFA CSFC”) to the Authority as reimbursement for services rendered issuing bonds on behalf of open-enrollment charter schools. These amounts are not included in the base request for strategies Analyze Financings and Issue Debt (01-01-01) and Bond Management (01-02-01) above, instead they are in addition to the amounts in the agency’s line-item strategies. Retention of this rider in the FY2018-19 Biennium is necessary for the Authority to recover its costs issuing charter school debt on behalf of the TPFA CSFC.

Description/Justification for continuation of existing riders or proposed new rider

This rider provides for the continuity of funding appropriated for the Authority's completion of its automated debt management system. In February 2016, the agency implemented an integrated commercial off-the-shelf debt management software package that supports the various functions of a municipal bond issuer. The features of the multi-user relational database assist the agency in carrying out mission-critical functions related to issuance and management of its outstanding debt. Retention of this rider is requested during the FY2018-19 Biennium in order for the Authority to complete final software enhancements, migration and training to provide functionality necessary for staff to achieve maximum efficiency and effectiveness that the automated debt management will allow.

Description/Justification for continuation of existing riders or proposed new rider

This rider provides the Authority with an additional appropriation of reimbursements of up to 20% in the base request for strategies Analyze Financings and Issue Debt (01-01-01) and Bond Management (01-02-01) to cover the cost of additional workload when the Number of Requests for Financings exceed performance targets. While the agency's expenditures have remained within base appropriations during the FY2016-17 Biennium, inclusion of the rider is requested given the uncertainty of the Number of Requests for Financings in the FY2018-19 Biennium, in order to provide the agency with additional funding capacity for additional projects authorized by the legislature.

METHOD OF FINANCING:

781	Bond Proceeds-Rev Bonds	75,572	75,572
TOTAL, METHOD OF FINANCING		\$75,572	\$75,572

DESCRIPTION / JUSTIFICATION:

The Authority's exceptional item is requested to provide funding for an increase in its line-item exempt executive director position at the request of the Board of Directors of the Authority. The current not-to-exceed salary of this exempt position is significantly lower than the salary of the executives responsible for debt issuance at other state debt issuers. This alone limits interest in the position, creates salary compression for other positions within the agency, and does not attract an acceptable or qualified level of experienced candidates having similar market knowledge or expertise. Furthermore, the amount is currently under the market annual average salary as reported by the SAO in its August 2016 report. The requested increase is to align the Authority's Executive Director's salary to a compensation level similar to other state debt issuers and commensurate with the risks involved.

EXTERNAL/INTERNAL FACTORS:

Funding for this exceptional item is critical to ensure that the Authority is able to attract qualified financial professionals having considerable experience issuing debt in the municipal finance market and to run a multi-coordinated state agency. The agency's work is complex; therefore, it is essential that the Authority have the resources necessary to attract and retain financially sophisticated personnel with the knowledge to assess the market conditions, represent the agency before rating agencies, interact meaningfully with financial advisors, bond counsel, and underwriters and personnel and have the knowledge and experience in finance, federal securities law, federal tax law, investment banking and municipal bond underwriting procedures and industry accepted public finance practices, all of which are necessary to structure, issue and manage debt in the most cost effective and efficient manner.

DESCRIPTION / JUSTIFICATION:

The Authority's exceptional item is requested to provide funding to support programming, development and deployment costs for transitioning to the state's ERP solution, Centralized Accounting and Payroll/Personnel System (CAPPS). Such funding includes salary and other personnel costs for .5 FTE in FY 2018 and 1 FTE in FY 2019 dedicated to agency deployment efforts, training, and migration and/or disposition of agency legacy data.

EXTERNAL/INTERNAL FACTORS:

Funding for this exceptional item is necessary for the implementation of the Authority's financials currently maintained in the agency's internal fund accounting system (SAGE Fund Accounting) to CAPPS. Such deployment is contingent on the Authority's continued ability to serve as controlling agency of its shared funds with its client agencies and access related financial data in order to continue to perform monitoring and reporting functions related to outstanding debt and compliance with state and federal regulatory agencies. Out-year costs will be dependent on the CPA's scheduled implementation of the Authority's HR component onto CAPPS.

B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals

Attainment:

In 2014, the TPFA did not achieve its HUB attainment goals in any of the three HUB Procurement Categories for which the agency had expenditures; however, in FY 2015 the agency exceeded its goal for Commodities by 53.41% by spending 74.41% of overall expenditures with HUBs. In addition to expenditures reported in the table above, significant amounts of underwriting fees were paid to disadvantaged business enterprises (DBE) and/or HUBs in both FY 2014 and FY 2015. Because underwriting fees are paid from bond proceeds rather than from Treasury funds, those amounts are not reflected in the table above under Professional Services.

Applicability:

The agency does not have any strategies or programs related to construction, therefore the Heavy Construction, Building Construction, and Special Trade Construction categories are not applicable to agency operations in either Fiscal Year 2014 or 2015.

Factors Affecting Attainment:

In the Professional Services and Other Services categories in Fiscal Years 2014 and 2015, the agency made large expenditures related to the issuance and ongoing administration of bond issues to service industries where no HUB firms are available. These industries include paying agents, commercial banks, rating agencies and property and casualty insurance companies. As noted, underwriting fees, which are paid to DBE's and/or HUBs are not reflected in the expenditures above as these fees are netted from bond proceeds prior to the deposit of funds into the State Treasury.

"Good-Faith" Efforts:

The Authority makes a good faith effort to utilize HUBs in the procurement process of all goods and services whenever applicable. The Authority issues RFP's to pre-qualify firms for inclusion in bond service provider pools. In addition to these good faith efforts, the Authority will not participate in any programs, nor will it conduct business with any entity that is found to knowingly discriminate against persons on the basis of race, color, gender, age, national origin, religion, or physical

or mental disability. The agency will continue to make the following good faith efforts to comply with statewide HUB procurement goals contained in 34 TAC 20.13:

- a) Include HUBs and other DBEs in the underwriting pool for negotiated bond transactions;
- b) Require all bidders to make a good faith effort to include HUBs and other DBEs in an underwriting syndicate on competitive sales; and,
- c) Require firms responding to solicitations for bond counsel, underwriter, financial advisor, and arbitrage rebate services to provide demographic information about the firm's workforce and equal opportunity employment policies.

REVENUE ASSUMPTIONS:

TPFA operates the Master Lease Purchase Program (MLPP) which is open to all state agencies and institutions of higher education. Currently, the program charges an Administrative Fee on each lease equal to 1.0% of the principal outstanding. This fee is established by the Authority in the program documents and may be changed with governing board action. When the program was first enacted in 1992, the Authority charged a one-time 1.2% Cost of Issuance (COI) Fee on the original par amount of the Lease and an ongoing 1.0% Administrative Fee. In 1997, the 1.2% COI fee was eliminated and the 1.0% Administrative Fee was cut to 0.5%, to more closely align revenues to actual program costs. In February 2010, TPFA's Board increased the Administrative Fee in response to higher liquidity fees. These revenues have been appropriated to pay a portion of the Authority's administrative budget and direct program costs that include Liquidity, Credit Ratings, Remarketing, Paying Agent fees and necessary administrative fees. This schedule estimates collections for Leases currently in place or anticipated, based on appropriations for the FY2016-17 biennium. The number and volume of Leases processed each year is a function of expenditures and financing decisions made by leasing agencies and the Legislature, and is not within the Authority's control. As a result, the fund maintains a balance to cover direct program costs in the event program activity declines.

	2018	2019	Biennial Total	2018	2019	Biennial Total	
1 Across the Board Reductions							
Category: Across the Board Reductions							
Item Comment: A 10% reduction will eliminate salaries and other personnel costs for two (2) FTEs and the reduction of one (1) TPFA board meeting. Funding to this level would reduce staff and the agency's salary budget at a critical a time when the agency's workload has increased and also when the agency has only recently filled all positions following its lowest FTE level in recent history. This reduction would adversely affect the agency's ability to: issue debt efficiently and cost effectively, comply with federal tax law and bond covenants, and to timely pay debt service. Should reductions below the base request be implemented, the Authority respectfully requests that its funding be restored with Appropriated Receipts, rather than from General Revenue, in order to maintain mission critical agency operations.
