87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

TEXAS PUBLIC FINANCE AUTHORITY ADMINISTRATOR'S STATEMENT

The Texas Public Finance Authority ("TPFA") respectfully submits its Legislative Appropriations Request ("LAR") for the 2022-2023 fiscal biennium. To fund agency administrative operations, this LAR includes a biennial general revenue base request amounting to \$1,541,983, supplemented by \$2,091,620 in non-general revenue funds, for a total agency request of \$3,561,603. TPFA requests no general revenue increase above the base request for administrative operations.

AGENCY MISSION AND STRATEGIES

The prudent use and effective management of public debt is imperative to the success of the Texas economy. By leveraging capital investments consistent with expected future growth, the state can deliver the infrastructure necessary for that growth, while doing so in a manner that fairly distributes the costs among current and future beneficiaries. The Texas Public Finance Authority was created as a locus of expertise, servicing the needs of a large and diverse group of client agencies and universities. While the Legislature authorizes the use of debt for a wide range of activities and projects, the TPFA is responsible for structuring and managing the resulting debt portfolio consistent with constantly evolving economic conditions, in compliance with relevant national and state regulations, minimizing the cost of that debt, and preserving the credit strength and reputation of the state.

TPFA is the state's central bond debt issuing agency, currently managing \$3.55 billion in outstanding debt. Further, TPFA plays a major role in shaping the public finance industry's perception of the state's debt issuance practices and maintaining the state's "AAA" credit rating. During its existence, TPFA has issued \$23.55 billion in debt obligations on behalf of 28 state agencies, universities and instrumentalities of the state. In addition, TPFA's Charter School Finance Corporation ("CSFC") has executed 33 charter school bond issuances, amounting to \$353.3 million.

TPFA's mission is to provide the most cost-effective financing for state agencies, institutions of higher education and certain instrumentalities of the state to fund capital projects, equipment acquisitions, and programs authorized by the Legislature. This mission has expanded significantly since TPFA's creation in 1984, in terms of the number of client agencies, the variety of the TPFA's financing programs and the complexity of its financing transactions. TPFA also administers a lease-revenue based commercial paper program which is available to provide either tax-exempt or taxable financing for the acquisition of equipment by Texas state agencies and institutions of higher education as well as for the construction or renovation of buildings.

TPFA achieves its mission through three budget strategies: 1) ANALYZE FINANCINGS AND ISSUE DEBT, i.e., provide efficient and cost effective and compliant financing for client agencies, 2) MANAGE BOND PROCEEDS, i.e., ongoing bond administration which includes servicing outstanding debt by ensuring timely principal and interest payments, managing bond proceeds, and complying with bond covenants and federal tax and securities laws; and, 3) BOND DEBT SERVICE PAYMENTS for all TPFA outstanding general obligation bond debt.

TPFA implements the first strategy, Analyze Financings and Issue Debt, by utilizing available municipal debt market instruments to finance legislatively authorized projects, including short term variable rate commercial paper notes, fixed rate bonds, and by refinancing debt for savings and paying off debt early with available funds. Further, TPFA must comply with Securities and Exchange Commission, Internal Revenue Service and other state and federal laws and regulations with each transaction. The second strategy, Manage Bond Proceeds, is equally important to achieving TPFA's mission. To prevent an obligation default that could adversely affect the state's credit rating, all debt obligations must be closely monitored for compliance with federal tax and securities laws and bond covenants and timely payment of principal and interest must be made. This function requires the proper transfers of monies between unique funds to ensure timely payment to the bondholders. Lastly, TPFA's appropriation structure includes Bond Debt Service Payments as a third strategy, which provides appropriations to pay debt service on the outstanding general obligation debt issued by TPFA. Pursuant to the provisions of the Texas Constitution, the first monies coming into the State Treasury must be used to service the debt

347 Public Finance Authority

on the State's general obligations.

Execution of these three budget strategies requires competence in interactions with underwriters, bond counsel, financial advisors and other industry participants to optimize results and minimize transactional risks. TPFA, likewise, must interact with policy makers, oversight entities, client agencies and the Bond Review Board. Thus, TPFA must be well versed in internal state protocols as well as financial markets operations. This is the framework of our budget considerations.

CHANGES IN POLICY, PROVISION OF SERVICE AND EXTERNAL FACTORS

A primary method of capital financing is through the sale of tax-exempt bonds and commercial paper. Because the interest income from these securities is not taxable income under federal law, these securities are advantageous to certain investors even though they frequently carry lower interest rates than taxable securities. Regulations, such as the arbitrage rebate provisions of the Internal Revenue Service ("IRS") Code, have significant impact on the way TPFA tracks the investment and expenditure of bond proceeds. The Securities and Exchange Commission ("SEC") has also adopted rules regarding the valuation of certain money market funds, which may impact the participation of those funds in the municipal market.

Regulatory agencies such as the SEC, the IRS, and the Municipal Securities Rulemaking Board ("MSRB") have increased their scrutiny of tax-exempt market participants, including issuers, consultants and broker/dealers. Evolving regulations and legislation require that TPFA continue to monitor any future changes in federal law that could impact municipal bond issuers. Finally, TPFA must comply with SEC requirements for issuers and underwriters to self-report instances of technical or financial default or prior non-disclosed matters. Disclosures are made primarily through the Electronic Municipal Market Access ("EMMA") online system. The EMMA website operated by the MSRB, the self-regulatory organization charged by Congress with promoting a fair and efficient municipal securities market. EMMA is designated by the U. S. Securities and Exchange Commission as the official source for municipal securities data and disclosure documents. The website provides free public access to objective municipal market information and interactive tools for investors, municipal entities and others. EMMA supports municipal market transparency but is not a platform for buying or selling bonds.

Other external factors, particularly the number of projects authorized by the Legislature and the associated implementation costs, impact TPFA's debt issuance and management workload.

In recent sessions, the Legislature authorized TPFA to issue up to \$1.0 billion in revenue bonds on behalf of the Texas Windstorm Insurance Association ("TWIA") to finance claims resulting from catastrophic events. The 84th and 86th Legislatures authorized the issuance of over \$ 1.24 billion of lease revenue debt on behalf of the Texas Facilities Commission ("TFC"), \$208 million for deferred maintenance at facilities managed by the Health and Human Services Commission, and \$326 million for the Texas Department of Transportation ("TxDOT") Austin Campus Consolidation project. For institutions of higher education, TPFA may issue tuition revenue bonds or self-supporting revenue bonds.

A long period of historically low interest rates created both tremendous savings opportunities and increased workload for TPFA . During fiscal years 2015-2020, TPFA refunded 25 series of bonds, saving over \$84.4 million of future debt service costs to the state. Since 1986, TPFA has refinanced over \$4.42 billion of general revenue supported debt providing savings of over \$277.2 million. This has been accomplished strictly based upon TPFA's initiative.

New authorizations and refunding transactions may increase the number of outstanding bond issues, and the complexity of ongoing debt administration, which includes: monitoring the expenditure of bond proceeds; compliance with bond covenants, paying bond debt service, and strategically managing debt offerings to minimize the state's financing costs.

Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

FUNDING REQUEST - ADMINISTRATIVE OPERATING BUDGET - \$3,561,603

GENERAL REVENUE BASE LEVEL FUNDING - \$1,541,983

TPFA submits this appropriations request in conformance with the 2022-2023 LAR instructions, limiting its General Revenue Base Level request for operations to \$1,541,983

RESTORATION TO LEVEL FUNDING - \$3,110,676

TPFA requests that general revenue funding be held constant for the 2022-2023 biennium, and that all funds appropriations not be reduced below the 2020-2021 biennial level - \$3,110,676. TPFA's level funding request with no increase in general revenue funding is supplemented with available appropriated receipts and revenue bond proceeds set-aside. The method of financing appropriately aligns the agency's budget between the agency's three major financing programs; general obligation debt financing; revenue bond financing and the Master Lease Purchase Program. Restoration of level funding will provide the minimum amount necessary to sustain agency operations. Level funding assumes no funding for staff salary increases, provides funding for ten board meetings including travel and per diem, and the amounts necessary to provide bond administration support, legal services, continued education and training, risk management and office supplies.

Administrative funding below the FY 2020-2021 appropriated amounts would impair the agency's ability to carry out its mission by eliminating board meetings and related functions necessary to timely issue debt, to monitor funds and pay debt service on existing debt. As noted, level funding would not provide for competitive salaries to fill vacancies or for merit salary increases for deserving agency staff.

Although TPFA is a small agency in terms of its FTE count and administrative budget, it is the debt issuer for 28 state agencies and related entities as well as an issuer of bonds issued by the TPFA's CSFC for the benefit of charter schools. TPFA manages over \$3.55 billion in outstanding debt, the performance of which is critical to maintaining the state's high credit rating. The nature of the agency's work requires employment and retention of individuals with extensive knowledge and experience in the mechanics of debt issuance, public finance, fiscal management, accounting, budgeting, and information resources as well as expertise in municipal finance regulations.

Specialized knowledge and advanced skills are necessary to manage debt issuance beginning with a client agency's request for financing, to the retirement of debt. Highly specialized and experienced TPFA staff do not earn salaries that are available in the private sector or larger state agencies and institutions of higher education. Nonetheless, TPFA's work is no less complex than required by other municipal debt issuers and private sector municipal finance service providers. Agency personnel require a strong understanding of finance, state and federal law, and public finance practices. These highly-specialized skills are developed by years of hands-on experience, and initial and continuing education. It is essential that the agency be provided with funding resources necessary to make strategic investments in its human resources to attract and retain skilled personnel.

The paramount responsibility of TPFA is to maintain compliance with state and federal laws and to ensure that debt service on outstanding obligations are timely and accurately paid. Level funding from the 2020-2021 biennium through 2022-2023 will permit the agency to carry out its primary mission to issue debt and to pay debt service timely. However, level funding would restrict the agency's ability to maintain salary competitiveness, to initiate additional financing programs, to enhance data security, and to take advantage of innovative financing opportunities or to deploy electronic content management enhancements and Debt Management System upgrades that would support debt issuance and interface with the core debt management software. TPFA is committed to continuous development and implementation of automated tools that will increase the efficiency and accuracy of its core functions, both to conserve agency resources and more importantly to ensure that TPFA continues to protect the state's credit. If TPFA cannot retain qualified and experienced staff and maintain robust and reliable data systems, the loss of knowledge and

Administrator's Statement

10/12/2020 3:12:09PM

87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

operational capabilities would pose a risk to the state's credit rating and the tax-exempt status of outstanding debt.

EXCEPTIONAL FUNDING REQUEST - \$532,084

TPFA proposes that any funding above level funding be appropriated with bond proceeds set aside or appropriated receipts, rather than from General Revenue. TPFA's enhanced funding request is described below.

1. Restoration of Base Funding - \$81,157

TPFA requests restoration of base funding, to be made up from non-general revenue bond proceeds and/or appropriated receipts. Base funding is required to provide funding for up to ten board meetings each year and to provide for the maintenance and further development of the agency's electronic content management system ("ECM") This requested funding would provide for enhancements to the current ECM system, including records retention programming costs and related annual maintenance.

2. 3% Merit Pool for Staff Salaries - \$105,554

TPFA requests this item to provide resources for management to reward exceptional performance through promotions or merit increases. This item request is to provide a merit salary pool of 3% for use by agency management to achieve competitive salaries across the agency. As reflected in TPFA's most recent Survey of Employee Engagement, below market compensation is the only notable item of discontent among agency personnel. Additionally, the agency has experienced difficulty in attracting qualified applicants at budgeted salary levels because other municipal debt issuers and private sector counterparts are competing for the same applicants and are able to offer higher compensation.

TPFA's most critical resource is its staff of highly trained and experienced personnel. If employees leave TPFA to obtain higher compensation this poses a risk to the state because it generally takes more than two years for employees to become fully trained and competent to perform highly complex financial and technical job responsibilities, the performance of which helps to sustain the state's credit rating.

TPFA's requested riders and mixed method of financing recommendation would provide flexibility to adjust staff salaries towards market average. Therefore, TPFA respectfully requests funding to provide merit increases when performance warrants.

3. Exempt Salary Increase – Executive Director - \$106,573

TPFA requests non-general revenue funding to adjust the executive director's compensation, including related benefit costs, to more closely align with the responsibilities of other issuers of public debt in the state. TPFA requests funding for an increase in TPFA's line-item exempt position for the executive director up to \$200,000. As noted in the August 2020 SAO Report on Executive Compensation at State Agencies, the Executive Director position is currently below market average.

In addition to having the knowledge and ability to manage a Texas state agency, TPFA's executive director must possess knowledge and skills equivalent to a Wall Street financial advisor or investment banker in order to evaluate each financing transaction and to assess municipal bond market conditions. The currently authorized not-to-exceed salary amount is significantly lower than the salaries of other state debt issuer executives as well as other government issuers around the country, limiting interest in the position. For example, in 2014 TPFA lost its prior executive director to a higher paying comparable position in another state. TPFA's current executive director retired in order to offset a loss of compensation when he accepted the position. In addition to the increase in TPFA's line-item the not-to-exceed amount, TPFA's Board of Directors request that its Line-Item Exempt Executive Director position be added to the Article IX Schedule of Exempt Positions, Section 3.04(c)(6), for discretionary considerations.

Administrator's Statement

87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

4. Attorney I/II - \$164,800

The highest and most critical workload is in the agency’s legal section. TPFA’s general counsel performs three functions: 1) in-house bond attorney, working with and overseeing outside counsel, 2) agency general counsel, and 3) member of the management team. In addition to routine matters, there are extraordinarily complex debt issues on the horizon (TxDOT, TWIA, Texas Military Preparedness Commission and Texas Workforce Commission unemployment compensation bonds). The addition of an Attorney level I or II would greatly assist with workload management and efficiency.

5. Continuity of Operations Plan (“COOP”) – Department of Information Resources Data Center Services - \$60,000

To ensure access to data in the event of a disaster, the Authority requests funding to implement moving its application and file servers to the State’s Data Center in FY 2023 in order to make information more readily available in the event the Authority’s COOP is activated in the event of an emergency.

TPFA’s COOP objectives include ensuring that TPFA is able to perform its essential functions under all conditions, reducing the loss of life and minimizing property damage and loss, ensuring there are facilities from where the agency is able perform essential functions, and achieving the agency’s timely and orderly recovery and reconstitution from an emergency. The Authority currently stores a COOP server off-site at the Texas State Library and Records Storage Center, Austin, Tx. The COOP server will reach its end of life during the 2022-23 biennium. If the Authority’s Capital Budget request for funding the DIR DCS is not authorized by the Legislature, the Authority requests funding in the amount of \$12,000 for a replacement COOP server.

6. Computer Equipment Refresh - \$14,000

This request would provide funding, not provided in the base request, for the refresh of remaining equipment resources to meet 5-year replacement cycle.

FUNDING REQUEST - GENERAL OBLIGATION BOND DEBT SERVICE

Funding is requested for debt service for outstanding general obligation bonds and estimated debt service for bonds and/or commercial paper anticipated to be issued during the 2022-2023 biennium. This request reflects funding of general obligation bond debt service through General Revenue and the General Revenue-Dedicated Texas Military Value Revolving Loan Account No. 5114.

Further, additional debt service for any new projects authorized by the 87th Legislature must be appropriated.

This funding request is based on the following interest rate assumptions:

FY	2020	2021	2022	2023	2024+
Commercial Paper					
Tax Exempt	5.00%	5.25%	3.75%	4.00%	Bond Rate
Taxable	5.50%	5.50%	4.75%	5.00%	Bond Rate
Bonds					
Tax Exempt	6.00%	6.00%	5.00%	5.25%	5.25%
Taxable	7.50%	7.50%	6.25%	6.50%	6.50%

Given existing debt service requirements, estimated costs associated with authorized new debt including future interest rate assumptions which have been submitted to

Administrator's Statement

10/12/2020 3:12:09PM

87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

347 Public Finance Authority

the Legislative Budget Board and the Bond Review Board, TPFA is requesting the estimated amount necessary to service general obligation bond debt. TPFA regularly updates its debt service projections, as needed, to identify the cost of proposed new debt authorization and savings resulting from lower than expected interest costs and delays in projected issuance. Identified savings are available to the Legislature for budget execution or supplemental appropriations. During the 86th Legislative Session, TPFA identified \$57.7 million of general obligation debt service and revenue bond lease payments (appropriated to TFC) savings, which were used for funding the FY 2017 and FY 2019 Supplemental Appropriations Bills. TPFA has also identified \$14 million of general obligation bond debt service savings that may be used to fund a supplemental appropriations bill in FY2021.

RIDERS

TPFA requests retention of riders in effect for the 2020-2021 biennium with the indicated adjustments for the 2022-2023 biennium.

Riders to be retained include only those riders that are in TPFA's bill pattern or that affect agency operations, as well as the appropriations for bond servicing costs on general obligation bonds. Riders affecting revenue bonds will be included in the respective client agencies' LAR's. TPFA requests the retention of UB authority for all three strategies due to the uncertainty of the timing of the issuance of debt and debt service requirements, amounts that cannot be determined until the debt is actually issued. UB authority becomes critical when requests for projects are delayed until the second year of the biennium. TPFA proposes the restoration of an Article IX rider that encourages state agencies and institutions of higher education to obtain the most cost-effective financing of capital assets, which may be available through TPFA's Master Lease Purchase Program. The rider would also provide a limited allowance for state agencies to finance capital assets, in addition to projects identified in capital budget riders. This provision would allow agencies to address emergency or critical needs that may occur during the interim between legislative sessions. Finally, the Authority requests a rider that would fund up to \$25,000 each year from appropriated receipts collected pursuant to a bond management contract with TWIA. TPFA workload related to TWIA bond related matters is significant and an appropriation has not been provided in several biennia.

SUMMARY

TPFA plays a major role in shaping the public finance industry's perception of the state's debt issuance practices, therefore it is imperative that TPFA have access to the human, technological and market resources needed to develop and adhere to sound debt management practices, to master and use new financing techniques to structure and market debt, and to ensure that its debt remains in compliance with state and federal laws. The industry's perception of state debt issuance practices and stability affect the state's credit rating and can significantly impact the cost of debt to the state. It is important for TPFA to keenly focus its efforts, particularly as the scope of its functions expands to meet legislative initiatives and the needs of its client agencies.

These funding resources will ensure that TPFA stays abreast of new developments in the public finance industry and able to provide the most efficient, cost-effective financing for its client agencies and, ultimately, the citizens of Texas. Further, the requested resources will enable TPFA to meet the financing needs of the state, maintain the state's "AAA" rating, continue sound debt management and capital financing practices for the State of Texas and serve as a resource to state leadership in the areas of debt issuance and debt administration.

With the requested funding, TPFA will be a prudent steward of state resources and continue to execute legislatively authorized debt issuance and manage risk, which the Legislature and the citizens of Texas have a right to expect from their state government.

BACKGROUND CHECKS

TPFA can report that TPFA's enabling law, TX Gov't Code chapter 1232, does not require criminal background checks. TPFA is not prohibited from, or required to, conduct such checks and does not routinely perform background checks; however, TPFA reserves the right to do so when filling an open position, depending on the job

duties and authorities assigned to the position.

EXEMPT POSITIONS AND SALARIES

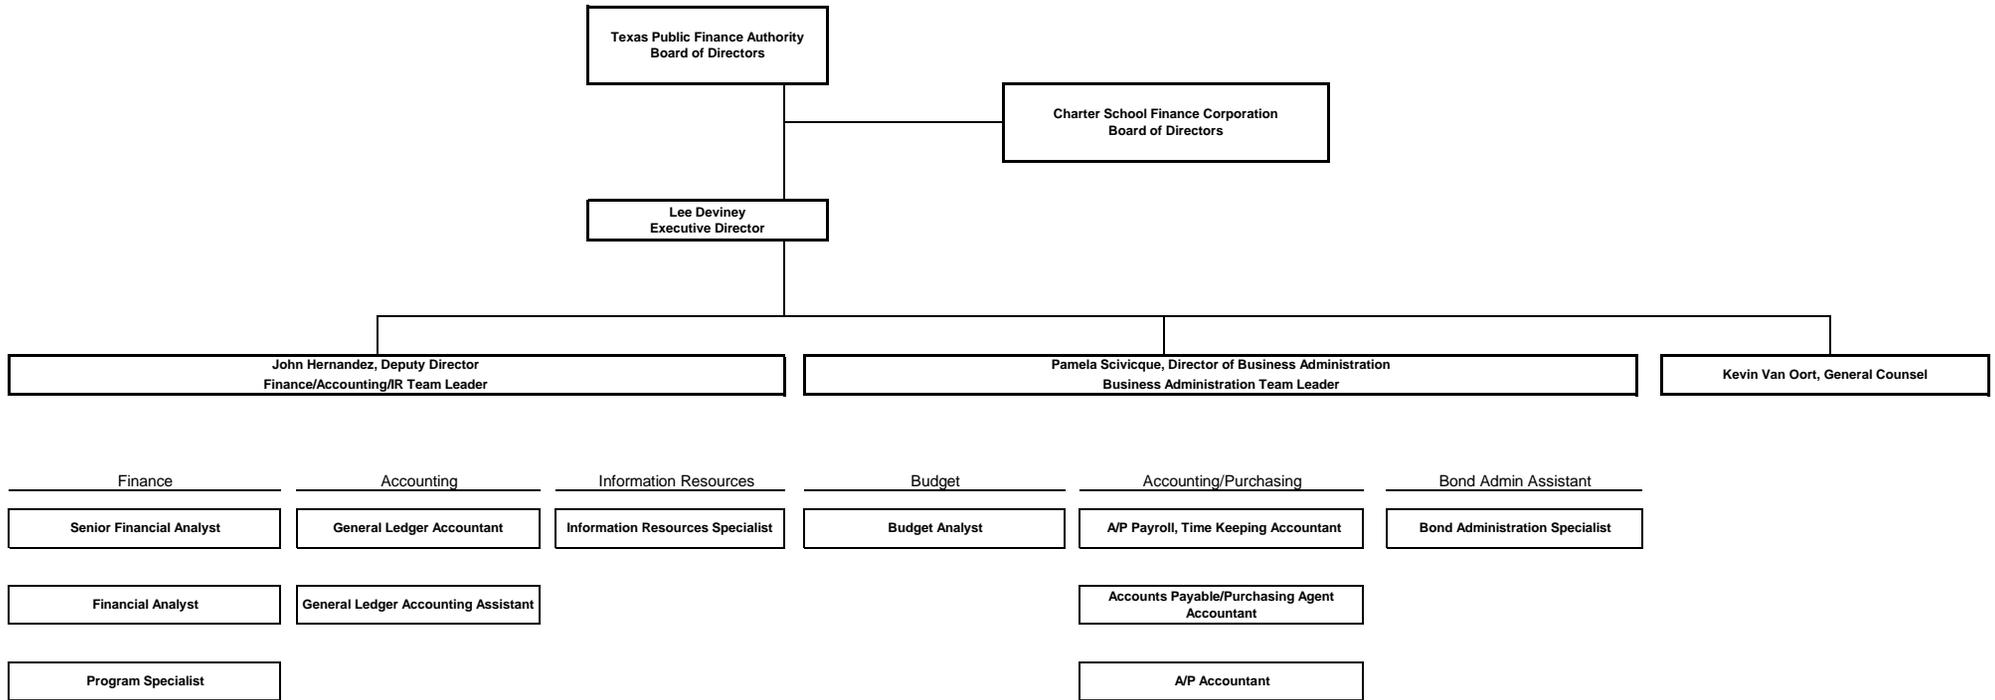

TPFA's Board of Directors request compensation for its exempt position at the not-to-exceed (NTE) salary level shown below and that salary group assigned to TPFA's Executive Director position be adjusted to Group 6. Further, the Board requests that the TPFA Executive Director position be included in the Article IX Schedule of Exempt Positions, Section 3.04(c)(6), to allow the Board the discretion to set the Executive Director's salary within the applicable salary range.

------	-------------	----------	----------	----------	---------	---------

The Authority is directed by Ch. 1232 and 1401 Tx Gov't Code to issue revenue bonds and G.O. bonds to finance projects authorized by the Legislature. Constitutional amendments in 1985, 1987, 1989, 1991, 1993, 2001, 2003, and 2007 authorized a total of \$12.1 billion of G.O. bonds to finance adult and youth correction institutions, mental health and mental retardation institutions and renovation, repair and construction of state facilities, cancer research, and other programs. Revenue bond financed projects for the Texas Facilities Commission and other state agencies and institutions of higher education include purchasing or constructing facilities in the Capitol Complex as well as other locations across the state. This strategy provides the necessary resources to provide financing for capital projects and equipment. This strategy and the agency goal support the statewide objectives. Specifically, this strategy supports effective, efficient and accountable state government operations and ensures that the state's debt is issued to achieve the lowest overall cost of borrowing; debt is efficiently issued to provide the highest quality service to meet the needs of each client agency; and, debt issuance is transparent with offering documents reviewed and approved by the Authority's Board, Bond Review Board and the Attorney General's Office ; published on the Authority's website, and made publicly accessible on the Electronic Municipal Market Access system (EMMA), the official repository of the Municipal Securities Rulemaking Board for municipal bond information.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

External Factors: The number and cost of projects authorized by the Legislature and requests by client agencies affect the level of debt issuance. Credit evaluation, interest rates, service provider costs and market conditions also affect the cost of issuing debt.

Internal Factors: Staff recommendations and Board policies regarding the type of debt issued, the mode in which it is issued, and the management of contracts related to debt issuance affect the overall cost of borrowing. The ability to attract, train and retain a skilled and knowledgeable workforce consisting of individuals possessing extensive experience in debt issuance, contracting, and state and federal legal issues in municipal finance is vital to implement this strategy.

------	-------------	----------	----------	----------	---------	---------

The Authority is directed by ch. 1232 and 1401 Tx Gov't Code to issue bonds and other debt obligations as described in strategy 01-01-01, implement bond covenants, manage proceeds, and timely pay principal and interest on outstanding debt. Bond covenants mandate the Authority to efficiently manage and monitor the expenditure of bond proceeds for compliance with applicable state and federal laws and ensure the timely payment of principal and interest payments. This strategy provides the necessary resources to meet these requirements and accomplish the goal to monitor and effectively manage bond issuances authorized by the Legislature in the most efficient manner possible. This strategy and the agency goal tie directly and indirectly to the statewide objectives. Specifically, this strategy supports effective, efficient and accountable state government operations by providing for conservative management of bond proceeds, compliance with bond covenants and applicable state and federal laws and timely payment of principal and interest on debt obligations, which will ensure the state's continued access to the bond market at the lowest possible cost to successfully fulfill the agency's core function. Finally, the Authority provides the highest quality service to meet the needs of each client agency; debt service payment is transparent through financial and budget reporting, and continuing disclosures are filed on the Electronic Municipal Market Access system (EMMA), the official repository of the Municipal Securities Rulemaking Board for municipal bond information.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

External Factors: This strategy is driven by strategy 01-01-01 and the resulting volume of debt issuance. Currently, the agency manages approximately \$3.5 billion in outstanding debt and currently manages 83 bond funds that have resulted from the issuance of bonds and other debt instruments. New authorizations and their subsequent debt issuance will impact this strategy in the direct areas of accounting, monitoring and management of funds, including payment of debt service. Changes in federal regulatory activities and laws, including the Municipal Securities Rulemaking Board, the Securities and Exchange Commission, and the Internal Revenue Service stipulate the bond monitoring and compliance efforts required to ensure that the state's debt is managed judiciously and that tax-exempt bonds maintain their tax-exempt status.

Internal Factors: The ability to attract, train and retain an intelligent, motivated and knowledgeable workforce possessing the skills to utilize efficient, cost-effective, and comprehensive information resources technology which includes debt management, accounting, and financial reporting systems, is the foundation of this strategy. Experienced and trained personnel and robust information resources are critical elements necessary to implement this strategy.

------	-------------	----------	----------	----------	---------	---------

This strategy includes appropriations necessary for servicing the Authority’s General Obligation Debt. General Obligation Bonds are backed by the full faith and credit of the State pursuant to the Texas Constitution, Article III, Sections, 49-e, 49-f, 49-h, 49-i, 49-l, 49-n, 50-f, 50-g, and 67. Timely payment of the Authority’s outstanding debt must be performed to prevent default and to maintain the state’s credit rating to ensure future borrowing at the lowest possible cost. This strategy and the agency goal support the statewide objectives. Specifically, this strategy supports effective, efficient and accountable state government operations by providing for the timely payment of G.O. Bond Debt Service, which will ensure the state's continued access to the bond market at the lowest possible cost to successfully fulfill the agency’s core function. Finally, the Authority provides the highest quality service to meet the needs of each client agency; and, provides transparent debt service information through financial reporting and budget reporting.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Additional appropriations of bond proceeds by the Legislature and new constitutional authorizations approved by the voters will require an increase in the appropriations for the Authority to service and pay the amounts of principal and interest due on its outstanding debt obligations. The ability to attract, train and retain a highly skilled and knowledgeable workforce with individuals possessing extensive experience in the state’s accounting and budgeting systems, as well as state and federal laws, are vital to implement this strategy.

Program Prioritization: Indicate the methodology or approach taken by the agency, court, or institution to determine the ranking of each program by priority.
 TPFA Budget by Program includes two discrete programs, General Obligations and Revenue Obligations under the Authority's two Strategies, A. 1.1. Analyze Financings and Issue Debt and A.2.1. Manage Bond Proceeds, which includes the payment of debt service. Paying debt service is the Authority's highest priority due to its role in helping to maintain the state's "AAA" credit rating to ensure that the Authority and other Texas debt issuers have access to the lowest cost of borrowing in the capital markets.

Current Rider Number	Page Number in 2020-21 GAA	Proposed Rider Language		
5	I-51	<p>Appropriation and Transfer Authority for Revenue Commercial Paper Programs: Payments and Administrative Fees. The Texas Public Finance Authority is appropriated balances held in and revenue accruing to the General Revenue - Dedicated State Lease Fund Account No. 0507 and the interest and sinking funds associated with the Texas Public Finance Authority revenue commercial paper programs for the purpose of making debt service and other payments in accordance with applicable laws, rules, and covenants pertaining to the respective revenue commercial paper programs. Included in amounts appropriated above is \$227,774 in fiscal year 2020 and \$259,762 in fiscal year 2021 out of Revenue Bond Proceeds for the administration of the revenue commercial paper programs. <u>Unexpended balances in and revenues accruing to the Texas Public Finance Authority revenue commercial paper program funds, including costs of issuance funds, in excess of those identified in the Method of Financing are hereby appropriated to the Texas Public Finance Authority for the purpose of administering the revenue commercial paper programs.</u></p> <p>The Texas Public Finance Authority is hereby authorized to transfer each agency's share of administrative fees and lease payments pursuant to the respective revenue commercial paper program from each agency's appropriations made elsewhere in this Act to the Texas Public Finance Authority revenue commercial paper program costs of issuance fund(s) and the General Revenue - Dedicated State Lease Fund Account No. 0507, respectively. Such transfers shall not be made earlier than fifteen days prior to the date that the debt service payment is required.</p> <p>The Texas Public Finance Authority may transfer funds necessary for revenue commercial paper debt service payments from the General Revenue - Dedicated State Lease Fund Account No. 0507 to the respective Texas Public Finance Authority revenue commercial paper program's interest and sinking fund. For the purpose of this provision, the Texas Public Finance Authority revenue commercial paper programs include: the Master Lease Purchase Program; the Texas Facilities Commission Revenue Commercial Paper Program; and any revenue financings authorized by the 86th 87th Legislature.</p> <p><i>Recommended changes are necessary for the 2022-23 Biennium following the establishment of the Authority's revenue commercial paper program for financing projects of the Texas Facilities Commission (TFC) and any change in the Authority's Method of Finance to include Appropriated Receipts. These changes provide the necessary appropriation authority of lease payments for the two revenue commercial paper programs, MLPP and the TFC, ongoing costs associated with administering the programs, and a Method of Finance of Appropriated Receipts to reduce the agency's reliance on General Revenue.</i></p>

6	I-51	<p>Appropriation and Transfer Authority for Unexpended Balances in Bond Related Funds. The Texas Public Finance Authority is hereby authorized to transfer all unexpended bond fund balances forward to the following fiscal year. Balances in and revenues accruing in these bond related funds are hereby appropriated to the Texas Public Finance Authority and may be transferred to the current fiscal year or prior fiscal years in order to make bond related payments and transfers in accordance with bond resolutions. Bond funds include but are not limited to construction (project) funds; acquisition funds; costs of issuance funds; rebate funds; capitalized interest funds; and restoration funds.</p> <p>_____</p> <p><i>The agency requests a correction to the typo identified above.</i></p>		
7	I-51	<p>Appropriation and Transfer Authority. Appropriations to all agencies on whose behalf the Texas Public Finance Authority has, or will issue bonds, notes, or other obligations are hereby authorized to be transferred to the Texas Public Finance Authority to the funds prescribed by the bond documents for payment of debt service. The monies so transferred are hereby appropriated to the Texas Public Finance Authority for payment of principal and interest on the bonds, notes, or other obligations.</p> <p>_____</p> <p><i>No recommended changes.</i></p>		
8	I-51	<p>Reimbursement of Expenses Related to Bond Issuances. In addition to the amounts appropriated above, in Strategies A.1.1, Analyze Financings and Issue Debt, and A.2.1, Manage Bond Proceeds, is an amount estimated to be \$0 for the reimbursement of costs related to the Texas Public Finance Authority Charter School Finance Corporation (CSFC) for bonds issued on behalf of charter schools, issued pursuant to Texas Education Code, §53.351, for payment, on behalf of the CSFC, of its required issuance and administration costs and reimbursement of the Texas Public Finance Authority's additional costs in providing staff support for such bond issues and administering the Texas Charter School Credit Enhancement Program.</p> <p>_____</p> <p><i>No recommended changes.</i></p>

Article IX Sec. 12.04	IX-62	<p>Sec. 12.04. Transfer of Master Lease Purchase Program Payments.</p> <p>(a) The Texas Public Finance Authority is authorized to transfer each agency's share of administrative fees and lease payments pursuant to the Master Lease Purchase Program from each agency's appropriations made elsewhere in this Act to the Texas Public Finance Authority Master Lease Purchase Program costs of issuance funds and the <u>General Revenue-Dedicated State Lease Fund Account No. 0507</u>, respectively. Transfers for administrative fees and lease payments may not be made earlier than 15 days prior to the date that debt service payment is required. The Texas Public Finance Authority may transfer funds necessary for Master Lease Purchase Program debt service payments from the <u>General Revenue-Dedicated State Lease Fund Account No. 0507</u> to the Texas Public Finance Authority Master Lease Purchase Program interest and sinking funds.</p> <p>(b) The Comptroller shall assist the Texas Public Finance Authority in the transfer of lease payments. State agencies participating in the Master Lease Purchase Program shall cooperate in the timely transfer of lease payments to the Texas Public Finance Authority. The absence of specific Master Lease payment appropriations, identified in an agency's capital budget, does not release an agency from lease payment obligations.</p> <p><i>The technical changes above are requested to align the description of the State Lease Fund Account as G.R. – Dedicated Fund to other descriptions throughout the GAA. Agency requests retention of this rider for the 2022-23 Biennium.</i></p>		
701	Article IX	<p><u>Agency's Participation in Master Lease Purchase Program.</u></p> <p><u>It is the intent of the Legislature that all agencies participate in the Master Lease Purchase Program to the extent that the Master Lease Purchase Program would be the most cost-effective type of financing when using a lease-purchase method for acquisition of capital assets. Agencies are hereby authorized to utilize up to fifteen percent (15%) of appropriations not restricted to capital budget purposes in accordance with Section 14.03 of this Article, "Limitations on Expenditures-Capital Budget", when financing the acquisition of capital budget items under the Master Lease Purchase Program.</u></p> <p><i>Agency requests consideration of the above policy rider for FY 2022-23 to encourage state agencies and institutions of higher education to obtain the most cost-effective financing of capital assets, which may be available through TPFA's Master Lease Purchase Program. The rider would also provide a limited allowance for state agencies to finance capital assets, in addition to projects identified in capital budget riders. This provision would allow agencies to address emergency or critical needs that may occur during the interim between legislative sessions.</i></p>

	1 General Revenue Fund	\$0	\$0	\$0	\$0	\$0
Total, Method of Financing		\$0	\$0	\$0	\$0	\$0

Description/Justification for continuation of existing riders or proposed new rider

This rider appropriates all current fund balances held in general obligation bond interest and sinking (“I&S”) funds to the Authority for the purpose of servicing the debt on its general obligation bonds. Additionally, the rider authorizes the transfer of appropriations included in the Recapitulation at the end of each article and identified in Bond Debt Service Payments in the General Appropriations Act to the Authority. Available I&S fund balances offset expenditures from General Revenue, General Revenue-Dedicated, and other method of finance sources by a like amount. This rider does not increase total appropriation authority, it merely directs the method of finance. Retention of this rider is requested for the 2022-23 Biennium to service the debt on the Authority’s outstanding obligations.

Description/Justification for continuation of existing riders or proposed new rider

This rider authorizes the transfer of lease payment appropriations made in this and other Articles of the General Appropriations Act to the Authority to service the debt on its revenue bonds. Additionally, it appropriates amounts in the General Revenue-Dedicated State Lease Fund Account and in revenue bond Interest and Sinking (“I&S”) Funds to the Authority for lease payments, which includes payments of debt service and other bond administrative costs. It also authorizes the transfer of appropriations between the State Lease Fund Account to the various I&S Funds for the payment of such costs. Available I&S fund balances offset expenditures from General Revenue, General Revenue-Dedicated, and other method of finance sources by a like amount. The Authority is required to pay debt service on revenue bonds issued to fund projects for the Texas Facilities Commission, and other client agencies for which TPFA issues revenue bonds. Retention of this rider is requested for the 2022-23 Biennium, which is necessary to pay bond servicing costs on the Authority’s outstanding revenue bonds.

Description/Justification for continuation of existing riders or proposed new rider

This rider authorizes the transfer of lease payment appropriations made in this and other Articles of the General Appropriations Act to the Authority into the General Revenue-Dedicated State Lease Fund Account for capital projects financed through revenue commercial paper programs. This rider authorizes the transfer of appropriations from the General Revenue-Dedicated State Lease Fund Account to the respective revenue bond interest and sinking (“I&S”) funds and costs of issuance (“COI”) funds in order to pay the debt service and administrative costs on short term obligations. Retention of this rider is requested for the 2022-23 Biennium to pay bond servicing costs on the Authority’s outstanding revenue obligations. For purposes of this section, the Texas Public Finance Authority revenue commercial paper programs include the Master Lease Purchase Program, the Texas Facilities Commission Revenue Commercial Paper Program and any other revenue financings authorized by the 87th Legislature.

Description/Justification for continuation of existing riders or proposed new rider

This rider provides for an appropriation of fees assessed and collected by the Texas Public Finance Authority Charter School Finance Corporation (“Corporation”) to the Authority as reimbursement for services rendered issuing bonds on behalf of open-enrollment charter schools. These amounts are not included in either the base request for strategies Analyze Financings and Issue Debt (01-01-01) or Bond Management (01-02-01), instead they are in addition to the amounts in the agency’s line-item strategies. Retention of this rider in the 2022-23 Biennium is necessary for the Authority to recover its costs issuing charter school debt on behalf of the Corporation.

Description/Justification for continuation of existing riders or proposed new rider

Agency requests consideration of a policy rider for FY 2022-23 to encourage state agencies and institutions of higher education to obtain the most cost-effective financing of capital assets, which may be available through TPFA's Master Lease Purchase Program. The rider would also provide a limited allowance for state agencies to finance capital assets, in addition to projects identified in capital budget riders. This provision would allow agencies to address emergency or critical needs that may occur during the interim between legislative sessions. Inclusion of this rider is requested to provide agencies and institutions of higher education access to cost-effective financing of capital assets.

781	Bond Proceeds-Rev Bonds	20,290	20,289
TOTAL, METHOD OF FINANCING		\$40,579	\$40,578

DESCRIPTION / JUSTIFICATION:

TPFA requests restoration of base funding, to be made up from non-general revenue bond proceeds and/or appropriated receipts. Base funding is required to provide funding for up to ten board meetings each year and to provide for the maintenance and further development of the agency's electronic content management system ("ECM") This requested funding would provide for enhancements to the current ECM system, including records retention programming costs and related annual maintenance.

EXTERNAL/INTERNAL FACTORS:

As the State's central debt issuer, TPFA's Board meets when there is important business for consideration. Due to the volume of requests that TPFA client agencies may include in their respective LAR's, it is important that the sufficient TPFA Board travel funding is available for the TPFA Board to meet to approve Legislatively authorized projects.

TOTAL, METHOD OF FINANCING		\$35,233	\$70,321

DESCRIPTION / JUSTIFICATION:

This exceptional item funding request is critical to ensure that the Authority is able to carry out its mission to issue debt in a timely and efficient manner for its client agencies, administer its outstanding debt, comply with regulatory mandates and maintain the state's credit rating through accurate and timely payment of bond debt service. TPFA requests this item to provide resources for management to reward exceptional performance through promotions or merit increases. This item request is to provide a 3% merit salary pool for use by agency management to achieve competitive salaries across the agency and in line with bond issuers and the Austin market. As reflected in TPFA's most recent Survey of Employee Engagement, below market compensation is the only notable item of discontent among agency personnel. Additionally, the agency has experienced difficulty in attracting qualified applicants at budgeted salary levels because other municipal debt issuers and private sector counterparts are competing for the same applicants and are able to offer higher compensation. TPFA's most critical resource is its staff of highly trained and experienced personnel. If employees leave TPFA to obtain higher compensation this poses a risk to the state because it generally takes more than two years for employees to become fully trained and competent to perform highly complex and unique job responsibilities, the performance of which helps to sustain the state's credit rating.

EXTERNAL/INTERNAL FACTORS:

As reflected in TPFA's most recent Survey of Employee Engagement, below market compensation is the only notable item of discontent among agency personnel. Additionally, the agency has experienced difficulty in attracting qualified applicants at budgeted salary levels because other municipal debt issuers and private sector counterparts are competing for the same applicants and are able to offer higher compensation. would provide flexibility to adjust staff salaries towards market average. Therefore, TPFA respectfully requests funding to provide merit increases when performance warrants. TPFA issues debt for 23 state agencies and related entities and manages over \$3.32 billion in outstanding debt, the performance of which is critical to maintaining the state’s high credit rating. This priority funding will allow the Authority to continue its important work and maintain service levels to client agencies by ensuring that debt is issued in the most efficient and effective manner, that bond proceeds are monitored to ensure compliance with state and federal regulations as well as comply with demands placed on issuers by state and federal regulatory agencies. The agency’s work is complex; therefore, it is essential that the Authority have the resources necessary to attract and retain technical and professional personnel with the knowledge to assess the market conditions, represent the agency before rating agencies, interact meaningfully with financial advisors, bond counsel, and underwriters and personnel and have the knowledge and experience in finance, federal securities law, federal tax law, investment banking and municipal bond underwriting procedures and industry accepted public finance practices, all of which are necessary to structure and issue debt in the most cost effective and efficient manner.

781	Bond Proceeds-Rev Bonds	26,643	26,644
TOTAL, METHOD OF FINANCING		\$53,286	\$53,287

DESCRIPTION / JUSTIFICATION:

TPFA requests non-general revenue funding to adjust the executive director’s compensation, including related benefit costs, to more closely align with the responsibilities of other issuers of public debt in the state. TPFA Board of Director’s requests funding for an increase in TPFA’s line-item exempt position for the executive director up to \$200,000. As noted in the August 2020 SAO Report on Executive Compensation at State Agencies, the Executive Director position is currently below market average.

EXTERNAL/INTERNAL FACTORS:

In addition to having the knowledge and ability to manage a Texas state agency, TPFA’s executive director must possess knowledge and skills equivalent to a Wall Street financial advisor or investment banker in order to evaluate each financing transaction and to assess municipal bond market conditions. The current not-to-exceed salary is significantly lower than the salaries of other state debt issuer executives, including the director’s and staff of other Texas state debt issuing agencies, as well as other government issuers around the country and this alone limits interest in the position and creates salary compression for other positions at the agency. For example, in 2014 TPFA lost its prior executive director to a higher paying comparable position in another state. TPFA’s current executive director retired in order to offset a loss of compensation when he accepted the position. In addition to the increase in TPFA’s line-item the not-to-exceed amount, TPFA’s Board of Directors request that its Line-Item Exempt Executive Director position be added to the Article IX Schedule of Exempt Positions, Section 3.04(c)(6), for discretionary considerations.

FULL-TIME EQUIVALENT POSITIONS (FTE):

1.00	1.00
------	------

DESCRIPTION / JUSTIFICATION:

The highest and most critical workload is in the agency's legal section. TPFA's general counsel performs three functions: 1) in-house bond attorney, working with and overseeing outside counsel, 2) agency general counsel, and 3) member of the management team. In addition to routine matters, there are extraordinarily complex debt issues on the horizon (TxDOT, TWIA, Texas Military Preparedness Commission and Texas Workforce Commission unemployment compensation bonds). The addition of an Attorney level I or II would greatly assist with workload management and efficiency.

EXTERNAL/INTERNAL FACTORS:

The addition of an Attorney level I or II would greatly assist with workload management and efficiency and will be necessary to free up the TPFA General Counsel to focus on other agency matters in preparation for the Authority's upcoming Sunset process.

735	TPFA Series B Master Lease Prj Fund	0	30,000
781	Bond Proceeds-Rev Bonds	0	30,000
TOTAL, METHOD OF FINANCING		\$0	\$60,000

DESCRIPTION / JUSTIFICATION:

To improve access to data in the event of a disaster, the Authority requests funding to potentially implement moving its application and file servers to the State's Data Center in order to make information more readily available in the event the COOP is activated. TPFA's COOP objectives include ensuring that TPFA is able to perform its essential functions under all conditions, reducing the loss of life and minimizing property damage and loss, ensuring there are facilities from where the agency is able perform essential functions, and achieving the agency's timely and orderly recovery and reconstitution from an emergency.

EXTERNAL/INTERNAL FACTORS:

TPFA must be able to access its data regardless of the type of extraordinary event that may take place. TPFA's COOP objectives include ensuring that TPFA is able to perform its essential functions under all conditions, reducing the loss of life and minimizing property damage and loss, ensuring there are facilities from where the agency is able perform essential functions, and achieving the agency's timely and orderly recovery and reconstitution from an emergency.

PCLS TRACKING KEY:

7000

DESCRIPTION OF IT COMPONENT INCLUDED IN EXCEPTIONAL ITEM:

To ensure access to data in the event of a disaster, the Authority requests funding to implement moving its application and file servers to the State's Data Center in FY 2023 in order to make information more readily available in the event the Authority's Continuity of Operations Plan ("COOP") is activated in the event of an emergency. The Authority's COOP objectives include ensuring that staff is able to perform its essential functions under all conditions, reducing the loss of life and minimizing property

damage and loss, ensuring there are facilities from where the agency is able perform essential functions, and achieving the agency's timely and orderly recovery and reconstitution resulting from an emergency.

IS THIS IT COMPONENT RELATED TO A NEW OR CURRENT PROJECT?

NEW

STATUS:

The Authority currently has one Systems Analyst dedicated to writing and maintaining software systems, applications and databases. The Systems Analyst also manages the Authority's servers and network environment. When the file servers are moved to the DCS, the Systems Analyst will continue to maintain the Windows networking environment (Active Directory, DNS, connected laptops and desktops, etc.), set up and maintain software systems (enterprise content management system, SQL server, continue to develop and maintain custom internal applications, etc.) on the DCS servers.

OUTCOMES:

To make information readily available in the event of a server failure due to any reason, including but not limited to a power outage, water damage, or building inaccessibility.

OUTPUTS:

The objective of this exceptional funding request is to provide remote server accessibility via VPN regardless of staff re-location as a result of an event. A measure of this benchmark is a successful test of the Authority's COOP.

TYPE OF PROJECT

Data Center Consolidation

ALTERNATIVE ANALYSIS

The Authority currently stores a COOP server off-site at the Texas State Library and Records Storage Center, Austin, Tx. The COOP server will reach its end of life during the 2022-23 biennium. If the Authority's Capital Budget request for funding the DIR DCS is not authorized by the Legislature, the Authority requests funding in the amount of \$12,000 for a replacement COOP server.

ESTIMATED IT COST

	Total Expenditures		9.7%		\$92,267	\$951,540		0.6%		\$8,470	\$1,323,267	

B. Assessment of Fiscal Year - Efforts to Meet HUB Procurement Goals

Attainment:

The agency did not achieve its HUB attainment goals in any of the three HUB Procurement Categories for which the agency had expenditures in FY 2018. (Refer to Applicability section below.)

The agency attained or exceeded one of three, or 58.85%, of the statewide HUB procurement goals in FY 2019. (Refer to Applicability section below.)

In addition to expenditures reported in the table above, significant amounts of underwriting fees were paid to disadvantaged business enterprises (DBE) and/or HUBs in both FY 2018 and FY 2019. The above figures are reported by the Texas Comptroller of Public Accounts and only reflect amounts that flow through the State treasury and thus do not include fees paid to underwriters, which are paid directly out of bond proceeds rather than from Treasury funds. During the 2018 – 2019 biennium, underwriting fees paid to HUBs and DBEs constitute \$436,347 or 17.6% of the total amount of underwriting fees paid.

Applicability:

In the Professional Services and Other Services categories in Fiscal Years 2018 and 2019, the agency made large expenditures related to the issuance and ongoing administration of bonds to service industries where no HUB firms are available. These industries include paying agents, commercial banks, rating agencies and property and casualty insurance companies. As noted above, fees paid to underwriters, including DBE's and HUBs, are not reflected in the expenditure table as these fees are paid directly out of bond proceeds and do not flow through the State treasury.

Factors Affecting Attainment:

In the Professional Services and Other Services categories in Fiscal Years 2018 and 2019, the agency made large expenditures related to the issuance and ongoing administration of bonds to service industries where no HUB firms are available. These industries include paying agents, commercial banks, rating agencies and property and casualty insurance companies. As noted above, underwriting fees, which are paid to DBE's and/or HUBs, are not reflected in the expenditure table as

Time: **3:34:23PM**

Agency Code: **347** Agency: **Public Finance Authority**

these fees are netted from bond proceeds prior to the deposit of funds into the State Treasury.

"Good-Faith" Efforts:

The Authority makes a good faith effort to utilize HUBs in the procurement process of all goods and services whenever applicable. The Authority issues RFP's to pre-qualify firms for inclusion in bond service provider pools for underwriter ("UW"), bond counsel ("BC") and financial advisor ("FA") and, without exception, the Authority invites qualified DBE and HUB firms to submit proposals to provide these services. The agency will continue to make the following good faith efforts to comply with statewide HUB procurement goals contained in 34 TAC 20.13:

- a) Include HUBs and other DBEs in the underwriting pool for negotiated bond transactions;
- b) Require all bidders to make a good faith effort to include HUBs and other DBEs in an UW syndicate on competitive sales; and,
- c) Require firms responding to solicitations for BC, UW, FA, and arbitrage rebate services to provide demographic information about the firm's workforce and equal opportunity employment policies.

REVENUE ASSUMPTIONS:

TPFA operates the Master Lease Purchase Program (“MLPP”), which is open to all state agencies and institutions of higher education. Currently, there is an Administrative Fee on each Lease equal to 1.0% of the principal outstanding. This fee is established by TPFA in the program documents and may be changed with governing board action. When the program was first enacted in 1992, TPFA charged a one-time 1.2% Cost of Issuance (“COI”) Fee on the original par amount of the Lease and an ongoing 1.0% Administrative Fee. In 1997, the 1.2% COI fee was eliminated, and the 1.0% Administrative Fee was cut to 0.5%, to more closely align revenues to actual program costs. In February 2010, the TPFA Board increased the Administrative Fee in response to higher liquidity fees. These revenues are appropriated to pay a portion of TPFA’s administrative budget and direct program costs that include Liquidity, Credit Ratings, Remarketing, Paying Agent fees and other necessary administrative fees. In 2019, TPFA finalized the refresh of a commercial paper program used to finance MLPP purchases, namely the TPFA Revenue Commercial Paper Note Program, Series 2019A&B. This schedule estimates collections for Leases currently in place or anticipated, based on appropriations for the 2022-23 biennium. The number and volume of Leases processed each year is a function of expenditures and financing decisions made by leasing agencies and the Legislature and is not within TPFA’s control. As a result, the fund maintains a balance to cover direct program costs in the event program activity declines.

Authority staff is tele-working to prevent the contamination and spread of the virus to its employees and their families. The Authority’s clients are other state agencies and some universities, generally through phone and e-mail communication. Additionally, the Authority engages as needed with legal and financial services personnel related to the administration of outstanding debt and debt issuance related matters. These functions have been successful to date in the current tele-work environment. Time reported by Authority staff includes researching various requests related to a new financing opportunity for borrowing from the Federal Reserve Municipal Liquidity Facility , potential future unemployment financing and alternative board meeting solutions. Consumable expenses include PPE and supplies for agency personnel.

FY 2022-23 Total	\$ -
Constitutional or Statutory Creation and Use of Funds:	
<p>The Authority does NOT have any funds that are authorized to be collected or spent by the state constitution, statute, federal law, or court order that are not appropriated by the Legislature in the GAA, other than bond proceeds generated by the sale of refunding bonds, which are deposited into the Texas State Treasury Safekeeping Trust Company pursuant to an Escrow Agreement and pledged for the purpose of redeeming refunded obligations, pursuant to TX Gov't Code ch. 1207.</p> <p>Bond proceeds and interest earnings thereon are appropriated to the respective agency on whose behalf the bonds were issued. Lease payments required to pay debt service on revenue debt are also appropriated to the respective client agency. The Authority has general appropriation authority in the state constitution, authorizing statute and in the riders in its bill pattern to transfer bond proceeds and debt service and to pay bond issuance costs and bond administration expenses. Bond issuance costs, which typically consist of fees for bond counsel, financial advisor, ratings, underwriter's compensation, printing and the statutorily required attorney general's fee for reviewing bond issues are typically paid from bond proceeds. Ongoing administration expenses, which typically consist of property insurance, paying agent, liquidity, dealer or remarketing agent fees and ongoing rating surveillance and other tax compliance such as arbitrage rebate computation and reporting, are paid from the general obligation bond debt service appropriation for general obligation related debt and from lease payments or pledged revenues for revenue related debt.</p>	
Method of Calculation and Revenue Assumptions:	
<p>(continued)</p> <p>This structure ensures the Authority has sufficient funds to comply with the legal requirements of its bond covenants. Appropriating revenue bond lease payments directly to TPFPA would violate the state constitution. Bond issuance costs vary significantly from year to year, depending on the number, complexity and dollar amount of bond issues and therefore are difficult to budget.</p>

Description:
 The development and production of bond transaction documents are transmitted electronically between the Authority and its bond service professionals. Additionally, disclosure documents of the Authority's bond transactions are made available to the municipal bond market and to bondholders on the Authority's website and are published on the Electronic Municipal Market Access system, or EMMA. The Authority's bond document development, production and publication through electronic means have been in practice for a number of years, therefore, the Authority has no way of assessing cost savings attributed to improved document production standards.
